Accommodation Services We Provide

RCA Trust's Supported Accommodation Project was set up to offer home base rehabilitation and help for problem drinkers. This service is part of the wider range of services available at RCA Trust.

We offer Supported Accommodation flats for homeless clients.

Supported Accommodation Service

Comprises 13 single person flats in Renfrewshire and East Renfrewshire. We do not accept clients seeking "crisis" accommodation. Length of stay depend on need and progress, which can vary, but averages around nine months. Our focus is to encourage clients to return to mainstream housing.

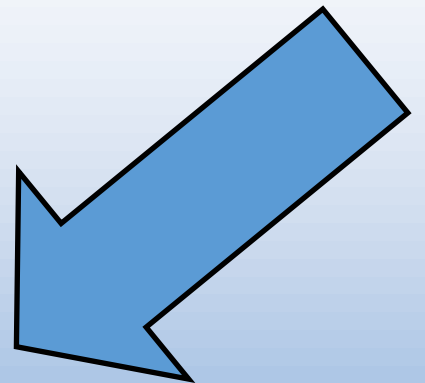

Referral Criteria

In our experience, to benefit from rehabilitation, clients are required to provide evidence of their commitment to tackling an alcohol problem.

The evidence required is listed below:

- ♦ A minimum of 4 weeks abstinence prior to assessment
- ♦ An ability to respond to support and guidance through achieving goals
- ♦ An ability to maintain an acceptable degree of social stability
- ♦ A determination to achieve independent living within the community.

Referral Criteria
